

The registration information for this years event needs to be **submitted in an Excel spreadsheet**. The spreadsheet was an attachment to the message you received with the contest guidelines. It can also be downloaded from the WV Cattlemen's Website www.wvbeef.org by following the WV Beef Expo Link.

This year's event will offer a junior and senior section. The spreadsheet will help you determine which section your team members will be in. Keep in mind mixed teams will be participating as seniors.

When you open the attachment you will need to save it on your computer before starting to fill in the information. You need to enter the Team name, coach's name, team members and birth dates. When you enter the birth date the age and section will automatically correct to the proper age and section.

When you have completed filling in your information save the file (make sure it is on your computer where you can find it). Send the file as an attachment to RRHelmondollar@mail.wvu.edu.

Fax copies or hard copies will not be accepted.
