Check out this bull's awesome weaning weight of 844#. If you want high output with low input then this is the bull for you! Uno is out of a dam of merit cow and certainly one of my best. He also has a tremendous set of balanced EPD's to complete this offering.

Undertaker was sired by the AGA Futurity champion Berretta. Undertaker's dam has averaged a weaning weight of 806 pounds on her first 2 calves. If you want a bull that will add explosive growth, pounds at weaning, and tremendous rib shape and thickness while maintaining stylish looks, great phenotype and a good disposition, then Undertaker is for you.

This young black purebred cow is very moderate in her frame and has an excellent udder. Her calving ease numbers are in the top 10%. She has a good Black Hill Top Erector Bull calf at side. The calf was born 1/31/09. Actual BW 80 #. The estimated calf epd's are CE 105 BW 0.7 WW 37 YW 71 MILK 14 DCE 106.

Undone is a moderate framed bull who is a great candidate to use on Angus based cows. He is a very balanced bull with a lot of depth, plenty of rib, and wide hiped. The low BW EPD is an added plus. He is a very quiet bull with a good attitude and an unlimited upside.

Spud is sired by one of the most accepted bulls in the Gelbvieh breed. Check out his minus BW EPD and his calving ease numbers. A heifer bull that maintains good carcass EPD's. Spud's feedlot merit and carcass value rank high and his marbling is positive also. This may be the heifer bull you are looking for.

A black Balancer heifer with low birth weight and balanced EPD's. Utterly Trouble's dam is a milking machine. This heifer has plenty of capacity and should make an excellent cow. Don't let her name fool you; she is a gentle as they come. She sells open and ready to breed to the bull of your choice.
